OBJECTIVE: A dedicated Business Analytics and Data Science student with strong analytical thinking and problem-solving skills. Seeking opportunities to apply statistical modeling, predictive analytics, and data-driven insights to business challenges.

Education

Bachelor of Commerce (Grade: **Distinction**)
The University of Sydney

Feb 2024 - July 2026

- **Major:** Business Analytics and Data Science
- **Relevant Topics:** Statistical Modeling, Integer/Non-Integer Optimization, Dynamic Programming, Stochastic Processes, Bayesian Inference, Generalized Linear Models, Time Series Analysis, Option Pricing, Machine Learning.

Skills & Interest

Technical Skills: **Python**, **R**, **SQL**, **LATEX**, Quarto, Git.

Academic Interest: Time Series Analysis, Portfolio Optimization, Machine Learning, Option Pricing.

Other Interests: Golf, Photography, Poker.

Technical Projects

Australian CPI Forecasting ↗

Nov, 2025

- Developed an ARIMA forecasting pipeline for Australian CPI data using Python, Statsmodels, and Pandas.
- Implemented exhaustive grid search with expanding window cross-validation to identify optimal hyperparameters.
- Surpassed baseline model performance by reducing Mean Squared Error (MSE) through out-of-sample validation.
- **Tools Used:** **Python** (Statsmodels, Pandas, Scikit-learn, Matplotlib, Seaborn), Quarto, GitHub Pages
- **Technical Skills:** Time Series Modeling, Expanding Window Cross-Validation, Data Visualization.

Regime-Switching Volatility Forecasting ↗

Dec, 2025

- Fetched market data using Quantmod and wrote scripts to resolve timezone-related date errors.
- Applied Hidden Markov Models within a GJR-GARCH framework to forecast volatility and identify distinct market stress regimes.
- Selected Skewed Student-t distributions to accurately model 'fat tails' and asymmetry in market data.
- Reduced MSE by 1.35% against single-regime benchmarks via parallelized expanding window cross-validation.
- **Tools Used:** **R** (MSGARCH, Quantmod, Tidyverse, doParallel, Plotly), Quarto
- **Technical Skills:** Volatility Modeling, Hidden Markov Models, Parallel Computing.

Experience

Receptionist

May 2025 - Sep 2025

BeBee Co-Working Space - HCMC, Vietnam

- Met and greeted up to 200+ guests daily to ensure they received a warm and friendly welcome.
- Took time to understand the needs of each visitor and offered additional information.
- Kept accurate records on check-ins and maintained data confidentiality.
- Worked as part of a team of 5 and motivated others whenever possible.

Waiter

May 2024 - Sep 2024

Ngon 138 Restaurant - HCMC, Vietnam

- Served customers and addressed complaints to improve customer service.
- Developed verbal communication skills by engaging with manager and kitchen staff to stay up-to-date on supply availability.

- Developed time management skills to minimize customer wait times.

Full-time Junior Golfer**Jun 2019 - Dec 2021***MMG Performance - Orlando, Florida*

- Trained with world-class coaches and competed in various junior tournaments.
- Achieved the best personal ranking of 7th in Disney Summer Junior Open (+10 over two rounds).
- Developed self-discipline through training and mental toughness through competition.
